

COUNTRY REPORT

Danish Economy

Denmark is an innovation-driven economy and a highly sophisticated consumer base. It is an attractive export market for any foreign company with a unique, innovative offering. In addition it is an optimal business gateway into the Nordic region, mainland Europe and the Baltic countries. With Denmark as your commercial point of departure you get easy, effective access to business opportunities in the prosperous Nordic region and across Northern Europe, markets with populations of approximately 25 million and 100 million respectively

The Danish market is an open, attractive and yet competitive market where there are significant business opportunities for your companies proposing value-added, innovative and unique technologies, products or services. The market represents a multitude of opportunities across a broad range of industries for companies demonstrating excellence, novelty and relevance.

The market is strong, open and globalized, with affluent and sophisticated consumers base of innovators and early adopters emphasising aesthetic and user-driven design, technology advances, sustainability and health/fitness. Easy access, low risk export market with no barriers when it comes to language, business etiquette and information sharing.

Copenhagen is the virtual capital of Øresund Region comprises eastern Denmark (Zealand, including Greater Copenhagen) and parts of the southern Swedish region of Scania. It is one of the most dynamic regions in Europe When you trade in the Øresund Region you get the best of two countries. You get the opportunity to develop your business in one of the best and sophisticated market with more than 1.8 million in Europe.
